

We do not recommend chinchillas for children under 12, although we do review and consider all applications. If you are under 18 you must have consent and support of your adult guardian. This application must be filled out completely to be considered for an adoption. Our first concern is the welfare of the chinchilla, and we reserve the right to refuse any applicant without explanation.

Chinchilla housing and care:

Do you have a cage ready?	Width:		Depth:		Height:	
Wire Space:		Floor material:		Bedding type:		
What type & How many shelves?						
What toys will you have in the cage?						
Where will the cage be located? Remember that chinchillas may play and be noisy at night, need to be away from sunlight, and need to be kept between 50 & 70 degrees year round.						
If your chin will have playtime outside the cage, how will you keep it from chewing things harmful to it and/or important to you?						

Outside the cage playtime:

Adult chins may have up to 30 minutes of playtime daily, but chins below 8 months should have less than 15 minutes daily, if any.

Excess playtime can cause stress and weight loss. Chins can't be overweight, they don't need exercise.
